

100-500 TON CAPACITY | 2"-12" STROKE | 10,000 PSI MAX. PRESSURE

100-500 TON CAPACITY | 2"-12" STROKE | 10,000 PSI MAX. PRESSURE

FEATURES

- Plunger wiper seal keeps out contamination and debris
- Industrial grade steel construction withstands even the most demanding of applications
- Chrome plated piston rod eliminates corrosion and rust
- Single acting load return
- Roller burnished cylinders for a smooth finish
- Stop ring prevents piston from being overextended
- 3/8" NPTF female coupler and dust cap on all models

FEATURES

- Plunger wiper seal keeps out contamination and debris
- Industrial grade steel construction withstands even the most demanding of applications
- Chrome plated piston rod eliminates corrosion and rust
- Double acting for positive retraction
- Roller burnished cylinders for a smooth finish
- Stop ring prevents piston from being overextended
- 3/8" NPTF female coupler and dust cap on all models

CQ38F High Flow Coupler included on all models

CQ38F High Flow Coupler included on all models
